

Parental Exemption Request

HB-545 gives parents the right to request their student be exempt from reproductive health and disease education. Pursuant to s. 1002.20, F.S.; A public school student whose parent makes written request to the school principal shall be exempted from the teaching of reproductive health or any disease, including HIV/AIDS, in accordance with the provisions of s. 1003.42(3). After you have reviewed the course lesson content and you wish to submit a request for exemption, please complete the request for exemption and submit it to the principal of the school.

I have reviewed the “*Real Essentials*” curriculum for teaching these topics and I am requesting that my student-

_____, be exempt from this program. I also understand that while this program is being taught in the classroom, my student will be assigned to be in the library or another classroom where they can work on other daily assignments.
