Assistant Principal

April 9, 2018

Dear Parent or Guardian,

Every five years, school districts are required to undergo an accreditation process to ensure we are providing a quality education to students. In preparation for the upcoming district accreditation review process, we are administering an AdvancED Parent survey. This information will be used by our school, the District, and the visiting accreditation team as a way to improve our school system.

Please complete the survey by Friday, April 27, 2018:

The parent survey may be completed at:

<https://eprovesurveys.advanc-ed.org/surveys/#/action/68016/24850>

We value your opinion. If you have difficulties completing the survey, please contact the school's front office at (904)259-6286. If needed, you can complete the survey at the school, or we can provide a paper copy of the survey for you to complete.

If you have children in multiple schools, you will receive an email from the principal of each school. Please complete a survey for each school site. Please note: If you completed a similar survey earlier in the year, we are respectfully requesting that you complete this survey. The parent survey is different from the survey administered in December.

Sincerely,

Principal Murphy, Principal  
Baker County High School
